

February 2020

Semester two is underway and we've had a smooth start.

The Winter Art Show on January 22 was a huge success and we want to thank everyone who came out to support our student artists. Report cards were issued at the end of January and although we do not have formal parent/teacher conferences scheduled until April, please feel free to contact teachers if you have any questions or concerns. Phase 2 of the school is complete and it feels good to have band and drama classes in their new spaces.

As we begin the second half of the school year we are still experiencing many "firsts" in the new school but we are also starting to think about next year. We will be hosting Grade 9 Orientation on March 5th, which will provide an introduction to Niverville High School for incoming students and parents. Specific details will be sent via email to grade 8 parents shortly.

In other school news, basketball season is underway, the bands will be participating in Optimist Festival, and the E-sports club has added League of Legends to their playlist. We are looking forward to our upcoming drama night on March 18th.
