

Timetable Revision for Period 3 (Grade 9 only)

All grade 9 students currently take two of three courses offered in period 3. The 70-minute block is divided into two 35-minute periods and these classes can run all year long.

Starting January 18th, this format will be changing so that each course can run for the full 70 minutes twice a week. These longer chunks of time will reduce the transition time between classes and provide concentrated learning time. The number of minutes per week do not change, just when they are allotted.

All students take Math, in the first or second slot, and then either Phys Ed or French in the other.

Current Student Schedule: (two student samples)

Student X has Math in slot 1 and French in slot 2

Student Z has PE in slot 1 and Math in slot 2
